A great deal is happening at Norra and Södra Älvstranden. Many people are affected both by what has already been accomplished and by what is being planned. Älvstranden Utveckling and the City Planning Authority have therefore set up Älvrummet, a forum where all current information is gathered and where people can meet and discuss what is happening.

The contents of Älvrummet reflect the long-term task of creating the Ideal City, which is part of the vision for the City of Gothenburg. The idea is that visitors can acquire a picture of the totality, both what has already been realised and what is in the pipeline. It can also function as a venue for seminars, presentations and debates on important subjects linked to riverside development.

The updated model of central Gothenburg will be a permanent feature at Älvrummet, together with the latest material on the development of areas such as Skeppsbron, Norra Masthugget and Lindholmen.

Education visits and guided tours at Älvrummet

At Älvrummet you can be guided around our model for Norra och Södra Älvstranden. Our guides will show you and explain what is happening in the different areas along the river.

You can also book a guided tour if you would like to come along with a group. If you wish to make a booking or would like further information, contact Sara by e-mail at [alvrummet@alvstranden.goteborg.se](mailto:alvrummet@alvstranden.goteborg.se) or by telephone on 031-779 96 70.

## **Älvrummet schools programme**

We are pleased to receive school classes who want to learn about urban development. Use Älvrummet as a single lesson or as a whole day of study. We adapt the information and activities to your wishes and needs. If you are interested and would like further information, contact Sara by e-mail at [alvrummet@alvstranden.goteborg.se](mailto:alvrummet@alvstranden.goteborg.se).
